## **PREAMBLE**

---

### **AIM**

In the present scenario, there is a massive demand for complementary job-oriented training programs for students in India. Such programs are mandatory to bridge the gap between academic and industry requirements. The aim of this two-day National Conference is to identify the gaps between academia and industries.

### **OBJECTIVES**

- To understand the issues and challenges in the linkage of university and industries in India
- To disseminate knowledge and share the experiences gained from working in Industries and Universities.
- To bring Industry and University closer in terms of having productive discussion about the opportunities where both group can work for mutual benefits.
- To explore the possibilities of framing curriculum in such a way to fulfil the current need of industries.

Research abstracts / papers are invited from the following area (s):

- Research Leading to Industry
- Drug Discovery and Development

- Environmental Management for Industrial Pollution
- Recent Trends in Science, Spatial Technology and IT
- Industrial Development and Management
- Sustainable Development on Recent Trends
- Modernization of Library

### **ABOUT UNIVERSITY**

The Tamil University, as an unitary type, was established at Thanjavur, on 15<sup>th</sup> September 1981. The very aim of the University is to promote research on the various aspects of Tamil Language, History, Art, Culture and Science.

Initially, when the University was started, it was solely meant for the advancement of research on Tamilology. In 1992, research degrees viz. M.Phil. and Ph.D. were introduced.

After 2001, in order to serve the requirements of the students hailing from rural as well as urban areas, the University started PG Degree courses and a few specialized diploma and certificate courses. The University has made a pioneering attempt to introduce Tamil as the teaching medium for all its courses including courses of Science and Technology.

The University has 26 academic departments and four research centres / projects. The thrust areas of research undertaken by the departments of Tamil University are related with the fields of arts, culture, music, dance, drama, paintings, sculpture, architecture, literature, grammar, linguistics, history, epigraphy, archaeology, religion, philosophy, geography, soil sciences, astronomy, navigation and shipping astrology, siddha medicine, Natural Language Processing with special reference to Tamil and handicrafts. The University has a library, and a museum. The University has a vast campus covering about 824.0 acres and has an Herbal Garden.

The University is located in the rural area of Tamil Nadu. It has produced many first generation Post Graduate and Doctoral students. The University has published more than 500 research books in Tamil and English.
